

Special Run cars available from Accurail

Accurail makes special run cars every year for attendees of Milwaukee's Trainfest in November. There will be no Trainfest in 2023 so we are making these special run cars available to everyone. These cars will be available direct from Accurail only. Ordering and shipping begins Nov 15, 2023. Pricing and ordering information can be found at www.accurail.com

These are the only direct-only cars that Accurail makes. All others are available from hobby dealers. Proceeds from these items go to the Christmas bonuses of Accurail's hard-working employees. Proudly made in the USA!
